## A NEW BOOK

Netherlands Mail in Times of Turmoil Vol. 2, 1795 – 1815. By Kees Adema RDP, FRPSL

The 450-page full colour second volume of the author's trilogy includes extensive historical background with never-before published illustrations as well as a 27page catalogue of French, English and Dutch military and semi-military markings.

Where Volume 1 of the Times of Turmoil trilogy covered a period of over two centuries, Volume 2, the French Napoleonic Era, spans only two decades. Yet it can hardly be matched in earthshaking significance because of the almost constant state of war, countless battles and peace treaties, reshuffled allegiances and political alignments, the creation of vassal states and annexations.

18 September 1812: only recorded letter from French-occupied Moscow to Amsterdam.
